

Hachikita Highland Walking Map

This map is to explore around Hachikita Highland. There are coupons on the back that can be used at shops. They are available once per store. If the coupons do not show the validity period, you can use them anytime.

A~P Point A to Point P are the recommended spots to visit.

- Make sure to bring a bell or something that makes a noise when walking in the mountain. ● Please note some of the areas do not have a mobile phone signal. ● Stay hydrated. ● Bring rain gear. ● Do not pull or take plants and flowers.

The photo taken at the point I. There is Onuma around the area. It is near the roadside and the sunrise view is fantastic.

The view from the point M, the top of Mt. Hachibuse. The mountain in north-northeast is the Mt. Torokawa, one of the 100 best tourist places in Hyogo. You can see Mt. Daisen in Tottori too when the weather is nice.

The view of the east from the point L. The series of the mountains are spectacular and a sea of clouds in the late fall is breathtaking. Surrounding is the deciduous forest and it has different aesthetics in each season.
