Best of the best, Tajima Beef!

The most famous of them all is our delicious Tajima Beef. It is characterized by its fatty well marbled texture. One bite, and you will understand the enjoyment of the soft texture and rich flavor that almost melts in your mouth. Pure delight.

High quality brand of an excellent pedigree

Tajima cattle used to be draft cattle used for the cultivation of rice fields and transportation. These cattle are historically known for its excellent quality. The process of selective breeding is more advanced for the edible cattle pedigree. Tajima cattle are sent all over Japan as breeding cattle and received as high a reputation as Kobe Beef, Matsuzaka Beef, Oumi Beef, and Hida Beef.

Japan's
top rated
rice!

Muraoka Rice

Naturally grown rice using an environmentally friendly circulation agriculture method. Top that with Muraoka's unique climate, temperature between daytime and night, that encourages premium rice growth. It has been honored as a four-time winner of the Gold Award in the International Contest on Rice Taste Evaluation. The taste of this rice is one of the best in all of Japan.

local ingredients

pedigree of beef

Fresh Squid

Excellent! Our squid has a crunchy texture and tastes even sweeter.

White Shrimp

It has even elegant flavor with a sweet and soft texture.

Blackthroat Seaperch

Rich flesh is not greasy at all.

Sturgeon (caviar)

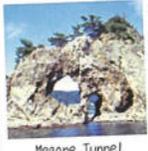

One of the world's top three delicacies; caviar and sturgeon cuisine

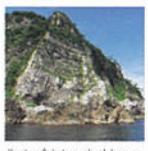

Snapping turtle

The snapping turtle cuisine is effective in promoting good blood circulation and recovery from exhaustion. It is very popular among women because it is rich in collagen.

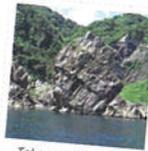

Megane Tunnel

Yorii no Sobe is a natural treasure

Taka no Su Island

Matsu ga Hana

The definition of Geopark is a location where natural wonders are plentiful and nature is respected by the local inhabitants. Your five senses will be thrilled with scientifically valuable heritage such as geology, biology, culture, history, and special local products.

The Museum of Geology and Topography Welcome to the World of Geoparks

Recommended route

A satisfying course along the Kasumi Kaigan Coast

●JR Kasumi Station ⇒ ●Okami Park ⇒ ●Imagoura ⇒ The observatory, Ōbiki no Hana

Kamicho Geopark & Cultural Museum of the Sea

- Business hours 9:00am-5:00pm
- Closed Wednesdays (or the following day if it is a national holiday) and the Japanese New Year's holiday

map 8 ☎0796-36-4671

Here you will learn about the climate with geology, topography, local living, and food. It holds exhibits of the sea culture of the Kasumi fishing town, history of Japanese freight vessel named Kitamae-Bune, and taxidermied fish species living in the Japan Sea.

The sunset at Kasumi Kaigan Coast

One of the top hundred most beautiful sunsets

The curving coast lines and the sunset over the horizon are like a beautiful harmonious picture. Let it fascinate you.

The observatory, Ōbiki no Hana

Sunset Spot

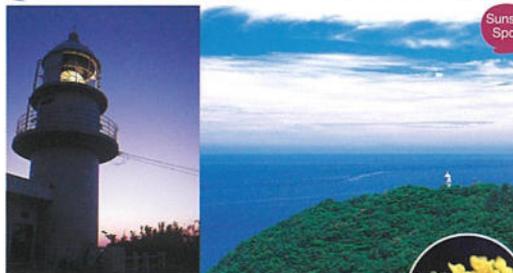

This observatory has a 270-degree view. The view from the top of the observatory is breathtaking.

map 4

Day Lily (Early July to Mid July)

Amarubesaki Tōdai Lighthouse (Misaki Tōdai Lighthouse) The tallest lighthouse in Japan

Sunset Spot

The lighthouse is 14 meters high, but the light itself is located at 284 meters above sea level. It is the tallest in Japan. You will have a wide view of the San'in Kaigan Coast. If it is sunny, you will have a great view of even Tango Peninsula.

Dried fish

This dried fish is the best in quality. The taste is condensed by the special processing techniques.

Thin skinned Manju

Kintsuba

Botamochi

Azuki pan

Relax and enjoy your tea time with Azuki bean sweets.

Azuki tea

"Mikata Dainagon" Beans

This kind of beans are bigger than regular Azuki beans. They have more sugar and a strong taste. They are easy to process into sweets. You will find a variety of tasty sweets here.

Pear

"Njusselki," "Shinkou," and "Oushu" are pears that we are very proud of. At Hyogo prefecture, we specialize in producing these kind of pears. The first pear will be shipped at the end of August. They have a special quality.

Heshiko

After maturing it for a long amount of time, it creates a unique taste. You will never forget how good it tastes.

Smoked food

Smoked local food materials have no additives in them. The more you chew, the flavor gets stronger.

Enjoy the taste of Kami-cho!

We would like to show you special local products here. Please try them out when you visit Kasumi! They will also be nice souvenirs with a good price.

Miso [Meji miso · Yadagawa miso]

Popular hand-made miso with beans and rice produced in Hyogo. No additives! The taste is just like your grandmother's cooking.

Japanese sake, "Kasumitsuru"

Kasumitsuru is a popular sake choice for a souvenir! Kasumitsuru is produced with our traditional process, using Kimoto and Yamahai method.

Sweet fish from Yadagawa River

You may enjoy the best taste of sweet fish at Yadagawa River during June and early summer.
